SUPERVISOR COMMENTS

Today day shift was steady. We took 15 reports throughout the day. Officers caught up on their reports in the early morning. These reports were from the busy work week they had. As time allowed, Officers responded to our Firearms Range Training Center and conducted on-duty range training. As the day progressed calls for service increased. No calls for service awaited an officer's response longer than usual. At the time swing shift officers were beginning their shift only a couple of calls were pended.

SUPERVISOR COMMENTS

Swing shift was extremely busy today. We ended up taking a total of 15 reports. Today we handled a total of two hit & run accidents where minor injuries were sustained to at least one of the involved parties. Both drivers who fled the scene of the accident, have not been located as of the typing of this log. Those two investigations are on-going. During our shift, we received a call of a subject who was possibly passed out behind the wheel of a vehicle near the intersection of W. Canal Dr. and Geer Rd. We responded to the area and ended up finding the driver and the vehicle. Through the course of our investigation, the driver ended up being arrested for driving under the influence. I ended up holding over two of our officers for an hour to make sure we had enough patrol units to handle the incoming call volume.

CTO's: None completed during this shift.

Extra Patrols: Denair Park, E. Canal Dr. / N. Johnson, Downtown, Central Park.

SUPERVISOR COMMENTS

Graves was steady all night with calls pending for the majority of the time. During the first part of our shift, we responded to Safeway for the report of several vehicles in the parking lot. While heading to this call, we were informed that some of the vehicles were driving recklessly in the area. Once we arrived, we found about 75 vehicles in the parking lot of Safeway and Ross. Several officers responded to the area and fortunately most of the drivers were cooperative and they began to leave the area. It took about 20 minutes for the majority of the vehicles to leave. Later on during our shift, we received a call of a possible DWI driver near Turlock Stadium 14. Units responded to the area and located the vehicle and driver. This driver ended up being under the influence and was arrested for DWI.

CTO's: None completed during this shift.

Extra Patrols: Monte Vista Crossings (x2), Central Park, Safeway, Turlock Indoor Soccer, Downtown, Denair Park, Quail Rand Norton Park, Crowell School.
