2004 Detectable Warnings

• As-Built Description:

Detectable warning surface not provided where a curb ramp, landing, or blended transition connects to a street.

• Proposed Solution:

Install a truncated dome surface that extends the full width and depth(36" min.) of the curb ramp, excluding the flared sides, inside the grooved border.

E Blended Transition

2404 Detectable Warnings

- *As-Built Description:*

Detectable warning surface not provided where a curb ramp, landing, or blended transition connects to a street.

- *Proposed Solution:*

Install a truncated dome surface that extends the full width and depth(36" min.) of the curb ramp, excluding the flared sides, inside the grooved border.

- *Notes:*

Level change at bottom landing

NW Curb Ramp Not Provided

3151 Access Route

• As-Built Description:

Curb ramp or blended transition not provided where a pedestrian access route crosses a curb.

• Proposed Solution:

Provide a parallel curb ramp, including detectable warning surfaces, and top and bottom landings as required.

PCODE	PC01B

SW Perpendicular

3152 Ramp Landing

- *As-Built Description:*

Top landing at existing perpendicular curb ramp is less than 48" x 48" (60" length x ramp width preferred).

- *As-is Measurement:* 36"
- *Proposed Solution:*

Demolish existing and provide new, perpendicular curb ramp, including detectable warning surfaces, and top and bottom landings as required.

- *Notes:* Top portion of ramp and top landing closed off by locked fence. Solution - readjust fence to provide use of curb ramp.

3223 Ramp Slope

- *As-Built Description:*

Running slope of existing perpendicular curb ramp is less than 5% or greater than 8.3%.

- *As-is Measurement:* 9.6%
- *Proposed Solution:*

Demolish existing and provide new, perpendicular curb ramp, including detectable warning surfaces, and top and bottom landings as required.

NE Curb Ramp Not Provided

3518 Access Route

• As-Built Description:

Curb ramp or blended transition not provided where a pedestrian access route crosses a curb.

• Proposed Solution:

Provide a parallel curb ramp, including detectable warning surfaces, and top and bottom landings as required.

• Notes:

Serving of Turlock library.

PCODE PC01B
ADAPROW **R207.1**
ADA-1991 **4.7.1**
